

# SEASAW40

SEASAW40 is a high frequency chain saw with a universal diamond chain, suitable for cuts on reinforced concrete, masonry and natural stone.

The high-frequency motor is water-cooled, with 3700W output in single-phase and 6500W in three-phase, depending on the electrical availability of the site.

TECHNICAL SPECIFICATIONS			
	UoM	SINGLE PHASE	THREE-PHASE
Voltage	V	230	400
Max Power	W	3700	6500
Continuous power	W	2700	4800
Cutting depth	mm	405	405
Bar Length	mm	400	400
No. of revs	1/min	5500	5500
Weight	Kg	9,8	9,8

CODE	DESCRIPTION
SEASAW40	High frequency chain saw complete with universal diam. chain
SEASAW40840	400mm bar complete with diamond chain and toothed pulley
SEACUT400HF6D	Frequency converter
