

SEACUT400HF disc

SEACUT400HF is a disc power cutter for cuts in reinforced concrete, masonry and natural stone of up to a depth of 165 mm.

The high-frequency motor is water-cooled, with 3700W output in single-phase and 6500W in three-phase, depending on the electrical availability of the site.

TECHNICAL SPECIFICATIONS

	UoM	SINGLE PHASE	THREE-PHASE
Voltage	V	230	400
Max Power	W	3700	6500
Continuous power	W	2700	4800
Cutting depth	mm	165	165
Ring ø	mm	400	400
Spindle hole	mm	25,4	25,4
No. of revs	1/min	2500	2500
Weight	Kg	9,4	9,4
